J. V. BAILEY'S
HARDY NURSERY STOCK
DAYTONS BLUFF STATION
ST. PAUL, - MINN.

YOU NEVER CAN TELL what the fruit will be if you buy your nursery stock from unscrupulous agents or unreliable nurseries.

Can you say that you have never been deceived or overcharged by the agent who comes to you with the attractive colored pictures of delicious looking fruits.

Even the honest agent must have pay for his time and expenses. This is added to the price he pays with the result that you either get inferior stock or pay high prices.

MY AIM is to grow the best varieties that have proved hardy in our severe Minnesota climate and sell them to the planter at the lowest possible price that can be charged for No. 1 Minnesota grown stock.

Owing to the high cost of growing nursery stock, prices are rapidly advancing but you will find my prices as low and, in many cases, lower than ever before.

The reason that I am able to quote these prices is that I have eliminated nearly all advertising expenses. I am SUBSTITUTING this price list for my annual descriptive catalogue which, in ITSELF, is a large saving. YOU PAY ONLY FOR NURSERY STOCK and not a lot of sales expenses.

A satisfied customer is my best advertisement.

For reference, ask your neighbor who has bought nursery stock from me.
